### **HEALTH** BOOSTER

The Health Booster provides additional benefits to Members at no extra cost. It is aimed at preventive treatment and therefore also gives access to free screening tests.

Only those benefits stated in the Benefit Structure under Health Booster will be paid by the Scheme, up to a maximum rand value which is determined according to specific tariff codes.

### QUALIFICATION:

Members qualify automatically for Health Booster benefits according to the set criteria.

- However, pre-authorisation is required in order to access the Maternity benefits and Weight Loss benefits on Health Booster.
   Contact the Client Service Centre on 0860 671 060 to obtain authorisation. (Failing to do this will result in the service costs being deducted from day-to-day benefits.)
- Verify the tariff code or maximum rand value with the Call Centre consultant.
- Inform the service provider involved accordingly.

### **SCREENING TESTS:**

One of the benefits available on the Health Booster programme is the Health Assessment. This assessment comprises the following screening tests:

- Body Mass Index (BMI)
- Blood sugar (finger prick test)
- Cholesterol (finger prick test)
- Blood pressure (systolic and diastolic)
- Prostate Phlebotomy for PSA test

Principal members and their beneficiaries will be entitled to one Health Assessment per calendar year and can have this done at any pharmacy.

A Health Assessment (HA) form can be obtained at any KeyHealth DSP pharmacy or downloaded from www.keyhealthmedical.co.za.

No authorisation is required for these screening tests.

Results can be submitted by either the Member or the service provider and can be faxed to **0860 111 390** or emailed to **disease.management@keyhealthmedical.co.za.** 

	TYPE OF TEST	WHO & HOW OFTEN					
Na	PREVENTIVE CARE						
SAI.	Baby immunisation	Child dependants aged $\leq$ 6 – as required by the Department of Health.
